

# Call for proposals: Research Management Facility

Profile picture for user doinita.ulinici

By doinita.ulinici, 30 June, 2026

The *Research Management Facility* call aims to establish a European facility that will provide tailored support to institutions in Widening countries for the development or modernisation of their research management capacities.

The support may include the assessment of institutional needs, the development of implementation plans, training activities, exchange of good practices, and networking opportunities for research managers.

Proposals must be submitted by a consortium, and the coordinator must be a legal entity established in a [Widening country](#). The consortium must include at least three independent entities from Member States or Associated Countries, of which two must be established in Member States.

**Deadline:** 24 september 2026

Details [here](#).
