

Call for proposals: Hop-On Facility

Profile picture for user doinita.ulinici

By doinita.ulinici, 30 June, 2026

The *Hop-On Facility* call allows organisations from Widening countries to join already funded Horizon Europe projects, in particular Pillar II actions and collaborative EIC Pathfinder projects.

The instrument aims to increase inclusiveness in Horizon Europe and offers eligible institutions the opportunity to become partners in existing consortia. Participation requires identifying a funded project that does not already include partners from [Widening countries](#).

Thus, the call offers research organisations, universities and other relevant actors the opportunity to contribute to European projects already under implementation and to expand their international collaborations.

Deadline: 24 september 2026

Details [here](#).
