

The Dissemination and Exploitation Support Facility call is opened for proposals!

By loredanaprijmireanu, 22 May, 2023

The 'Widening participation and spreading excellence' sub-programme contributes to building research and innovation capacity for countries lagging behind. Participants in the programme will be able to upgrade their research and innovation systems, making them stronger and allowing the EU as a whole to advance together, in line with the policy objectives of the European Research Area.

Hence, the EU funding programme aims to help the beneficiaries of widening actions to improve the effectiveness of their dissemination and exploitation by unlocking new sources of funding.

What exactly means „dissemination and exploitation”?

Making your research results public and making a concrete use of these results for societal, commercial or policy-related purposes.
