

Contribute to public consultation - MiE Work Programme 2025-27

By marianna.roman, 3 August, 2023

EFFRA (European Factories of the Future Research Association) has launched a public consultation on the priorities for the **MiE Work Programme 2025-27** (MiE – Made in Europe).

The **deadline** of the consultation is Thursday, **7 September 2023**.

It would be great if you can contribute to the consultation from your perspective (and herewith that of your organization or the stakeholders that you represent).

Please note that it is also possible to contribute to the consultation from the perspective of a particular project. Herewith you can point out how a particular project is already contributing to achieving particular targets associated to the suggested priorities.

More about how you can contribute, can be found [here](#).
