

Digital Transformation of Advanced Materials Research & Innovation

The **European Commission** is organizing a **workshop** on the **Digital Transformation of Advanced Materials Research & Innovation**.

The workshop will be held online on **15 September**, from **10:00** till **16:00 (CEST)**.

The objective is to identify actions needed at European level to establish:

- concrete links and synergies between EC initiatives, national strategies, platforms and other initiatives in this context;
- a common framework for collaboration.
- a federated governance for materials data.
