

Integration of social sciences and humanities in Horizon 2020

By igor.chiosa, 7 December, 2023

The integration of Social Sciences and Humanities (SSH) in Horizon 2020 is an important feature of the programme. To monitor the development of this cross-cutting issue is an EU commitment. Various dimensions are examined, such as the budget going to SSH partners (overall and in each part of the programme), qualitative aspects, performance of disciplines and sectors involved, as well as which countries are represented as participants and coordinators.
