

"EU Science, Research and Innovation Performance 2024" report

On **27 June 2024**, the European Commission will organise, in presence in Brussels and online, an event dedicated to the launch of the report "**Science, Research and Innovation Performance of the EU 2024**".

The report presents a comprehensive and detailed overview of Europe's current achievements in science, research and innovation. Highlighting the essential role of research and innovation in promoting competitiveness, environmental sustainability and improving quality of life, the report offers data-rich analysis combined with in-depth exploration of current policy issues.

To participate in the event, registration is required.
