

Week of Innovative Regions in Europe 2024

Join the **Week of Innovative Regions in Europe (WIRE)** conference under the Hungarian Presidency! The event will take place from **November 13-14, 2024**, in the beautiful city of **Budapest**. Don't miss this exceptional opportunity to meet and network with representatives and experts from all over Europe!

The WIRE conference serves as the main European policy forum dedicated to **innovation and regional development**. This event will bring together key players from the innovation and education ecosystems to enhance science-based competitiveness. The conference will focus on **knowledge-driven regional development** and propose ways to **optimize resource allocation** for this purpose.

Participation in the workshop is free of charge but prior registration is required. The organisers do not cover travel and accommodation costs.
