

SNS ICE / GUIDE: Automotive, Transport & Logistics Solutions Webinar

This webinar will focus on presenting the currently ongoing Connected and Automated Mobility (CAM) related activities from the SNS JU projects and the CEF programme (via the GUIDE project), as well as to offer the perspective and priorities of key automotive stakeholders. The overall goal of this webinar is to spread awareness on the work carried out within the SNS JU projects and CEF initiative, to exchange ideas with external CAM experts and to explore synergies with automotive and mobility experts around the world.
