

Innovation Radar

Profile picture for user doinita.ulinici

By doinita.ulinici, 23 January, 2025

The Innovation Radar is a European Commission initiative to identify high potential innovations and innovators in EU-funded research and innovation projects. Our goal is to allow every citizen, public official, professional and business person to discover the outputs of EU innovation funding and give them a chance to seek out innovators who could follow in the footsteps of companies such as Skype, TomTom, ARM Holdings, all of whom received EU funding in their early days.

This platform is a first step to achieving such ambitions. We will make information about EU-funded innovations from high-quality projects visible and accessible to the public via the Innovation Radar platform.
