

Brokerage event on Horizon Europe Cluster 1 2025 calls - Health

Do you intend to prepare a proposal addressing a topic under the upcoming calls in Horizon Europe Cluster 1?

The online Brokerage event organized on May 5-6 2025, will be dedicated to consortium building in Cluster 1 Health. The Brokerage event is organized before the Cluster 1 Health Info Day in order to give potential applicants more time to find potential partners and prepare their application.

The event will include online bilateral meetings with partners interested in the same topics for the 2025 Health calls.

After successful registration and submission of the high-quality cooperation profile, participants will be able to pre-arrange bilateral meetings through a user-friendly matchmaking tool. During the morning on the 5th, there will also be space for pitching sessions.

The registration will be opened on March 24.

The event is organized by the Health NCP network [HNN3.0](#) and in collaboration with members of the Health Sector Group of [Enterprise Europe Network](#).
