

# **Korea-EU Horizon Europe Researchers Networking Forum On Advanced Biotechnology**

The **Korea-EU Horizon Europe Researchers Networking Forum On Advanced Biotechnology** aims to foster collaboration between Korean and European researchers in advanced biotechnology, within the framework of Horizon Europe.

The event will bring together 12 researchers from Korea and 24 researchers from European countries, to exchange knowledge, explore joint research opportunities, and build lasting international networks.

Alongside the 36 selected researchers (session speakers), additional attendees may include other researchers, NCPs, consultants, support officers, and stakeholders.

The forum will concentrate on Work Programme 2025 calls under Horizon Europe Cluster 1 (Health), with particular emphasis on the following Destinations: TOOL, IND, and DISEASE

The Korea-EU Research Centre (KEREC) will cover the main transportation (e.g., flight/train) and accommodation costs for all selected Korean and European participants.

**Deadline to Apply: 31 May 2025, 24:00 (CET)**
