

Chips JU - ECS Brokerage event

The ECS Brokerage Event is a networking gathering designed to connect stakeholders in the Electronic Components and Systems (ECS) community. It will be held in Brussels on February 4–5, 2026, at a new venue, The EGG.

Key details include:

- Purpose: the event brings together industry associations (AENEAS, EPoSS, and INSIDE) to help participants network, build consortia, and generate project proposals for the new Chips JU Calls 2026.
- Activities: attendees can participate in interactive workshops, meet potential partners for project ideas, and receive first-hand information about funding opportunities.
- Registration: participation involves a fee for both members and non-members (with free registration for EC and Member State representatives).

It serves as a key platform for forming collaborations ahead of upcoming funding calls in the semiconductor and electronic systems sectors.
