

CEF Digital Community Conference

The **European Commission** is organizing the **CEF Digital Community Conference** in collaboration with the **European Health and Digital Executive Agency** (HaDEA). This event will highlight the progress made in interconnecting national and regional networks through submarine cables and terrestrial backbones, along with future investment perspectives. The event will also serve as a platform to explore critical themes such as security, resilience, dual-use of submarine cables, investment trends, and funding opportunities. Participants from the 5G smart communities and corridors are invited to engage in discussions aimed at shaping tomorrow's connectivity strategies, ultimately enhancing the competitiveness of the European digital sector.

For more information on the event and to register, please visit the [event website](#).
