

Online webinar on the DIGITAL Europe Work Programme 2023 - Digital Health topics

The Commission is holding an online information webinar on the 2023 health-related calls for proposals published under the Digital Europe Programme.

This event is aimed at presenting the two topics addressing health in the currently open call. In this 2-hour info session, the European Commission will cover the health data space topics on federated European infrastructure for Intensive Care Units' (ICU) data and Genome of Europe. Also, a forthcoming procurement topic related to a platform for advanced virtual human twin (VHT) models will be briefly presented.
