

Excellence Hubs: strengthening regional innovation in Widening countries!

By igor.chiosa, 18 July, 2023

Excellence Hubs focus on innovation in Widening countries and beyond. They allow innovation ecosystems to team up and create better connections between academia, business, government and society. To be eligible for Excellence hubs, the coordinator must be from a Widening country however the participants in the project can be from any country associated to the Horizon Europe programme.
