

Save the dates: September 23-24, 2025 - AI, Data, and Robotics Forum 2025 (ADRF25)

AI, Data and Robotics Forum (ADRF25), the third edition ADRA Forum will be hosted in Stavanger, Norway .

Immerse yourself in visionary keynotes, thought-provoking panels, and parallel sessions with industry leaders, researchers, and policymakers covering critical industrial and societal topics.

ADRF25 facilitates the convergence and synergies between stakeholder communities to move the European AI, Data and Robotics agenda forward.

We aim to jointly identify opportunities for Europe to globally position itself as a competitive player, by bringing ADR communities together and discussing opportunities, strategies, research, and deployment of these technologies for European industry and society.

Participation will provide numerous opportunities for networking, and showcasing businesses and projects through exhibitions and poster displays. Connect with like-minded professionals, share insights, and explore potential collaborations to drive the future of AI, Data, and Robotics.

ADRF25 connect with like-minded professionals, discover emerging trends, and contribute to shaping a sustainable, effective, and coherent European AI, Data, and Robotics ecosystem.

Together, we will pave the way for responsible digital transformation driven by the convergence of AI, data and robotics, boosting European competitiveness and strengthening Europe sovereignty and resilience while creating a prosperous, secure, and inclusive multicultural society.

Be part of this exciting journey and enjoy the forum experience in Norway. We look forward to welcoming you to ADRF25 in Norway for collectively exploring the endless opportunities at the cross cutting of AI, Data, and Robotics and their potential to shape a brighter future for all.

Sponsorship packages

Sponsorship packages and exhibition will be available, more info will come.

Organisers

This must-attend event will be organised by the [ADRA](#) in collaboration with the [European Commission](#) and local host NORCE with the support of [SINTEF](#) and [EDIH Oceanopolis](#).

ADRA Forum

The AI, Data and Robotics Forum (ADRF) is a premier annual event organised by the AI, Data and Robotics Association (ADRA), the private side of the European Partnership on AI, Data and Robotics, in collaboration with the European Commission.

ADRF brings together leading experts, innovators, policymakers, and enthusiasts from the AI, Data, and Robotics community. Our mission is to shape the future of these enabling technologies, fostering an inclusive and collaborative environment that drives impactful innovation and societal welfare.
