

SEMIC 2026

Mark your calendars for the **SEMIC 2026 Conference**, scheduled for **30 November 2026** in **Dublin**, organized by the European Commission in partnership with the Irish Presidency of the Council of the European Union.

This year's conference theme of discussion is "**Interoperable Europe driving competitiveness**". It will showcase how reusable digital public infrastructure, common specifications and shared data can help public administrations avoid fragmentation, make better use of digital investments and deliver more connected services for citizens and businesses.
