

EU Missions

A new way to bring concrete solutions to some of the EU greatest challenges with ambitious goals to deliver concrete results by 2030.

- EU Missions will deliver impact by putting research and innovation into a new role in combination with new forms of governance and collaboration, as well as citizen engagement.
- EU Missions are a coordinated effort by the Commission to pool the necessary resources in terms of funding programmes, policies and regulations, as well as other activities. They aim to mobilise and activate public and private actors, such as EU Member States, regional and local authorities, research institutes, farmers and land managers, entrepreneurs and investors to create a real and lasting impact.
- EU Missions will support Europe's transformation into a greener, healthier, more inclusive and resilient continent.

Mission Starfish 2030: Restore our Ocean and Waters

Targets by 2030: cleaning marine and fresh waters, restoring degraded ecosystems and habitats, decarbonising the blue economy in order to sustainably harness the essential goods and services they provide.

Caring for Soil is Caring for Life

Targets by 2030: at least 75% of all soils in the EU are healthy for food, people, nature and climate. The proposed mission combines research and innovation, education and training, investments and the demonstration of good practices using “Living labs” (experiments and innovation in a laboratory on the ground) and “Lighthouses” (places to showcase good practices).
