

DSSC Insight Series: Achieving Convergence in Data Spaces

We want to invite you to the upcoming webinar as part of the **Data Spaces Support Centre (DSSC)** Insight series, where we will explore the transformative world of technical convergence within data spaces.

Agenda

1. Welcome & Introduction: [Gianfranco Cecconi](#) (Executive Director of the Data Spaces Support Centre)
2. The Technical Convergence Document: [Sebastian Steinbuß](#) (CTO at International Data Spaces Association) & [Daniel Alonso Román](#) (Technical Lead at Big Data Value Association)

Explore the groundbreaking Technical Convergence Document from the newly formed Data Spaces Business Alliance (DSBA), comprising four strategic organizations: FIWARE, BDVA, IDSA, and Gaia-X.

3. Unveiling the FIWARE Data Spaces Connector: [Jason Fox](#) (FIWARE Foundation)

Get an exclusive look at the FIWARE Data Spaces Connector, a pivotal component in achieving interoperability and portability of solutions across data spaces.

About DSBA and the Webinar:

Achieving convergence in data spaces is a complex task that involves various facets such as data sharing, data sovereignty, and policy frameworks. The DSBA, formed by the collaboration of European [BDVA - Big Data Value Association](#), [FIWARE Foundation](#), [Gaia-X Association for Data and Cloud \(AISBL\)](#), and the [International Data Spaces Association \(IDSA\)](#), aims to drive the adoption of data spaces across Europe and beyond.

DSBA defines technical convergence as "a common reference technology framework, based on the technical convergence of existing architectures and models, leveraging each other's efforts on specifications and implementations." The ultimate goal is to achieve interoperability and portability of solutions across data

spaces by harmonizing technology components and other crucial elements.

Why Attend?

Gain a deep understanding of the concept of technical convergence.

Explore the importance of technical convergence in transforming businesses, industries, and society.

Learn more about the challenges and opportunities presented by technical convergence.

Don't miss out on this opportunity to hear from experts at DSBA, consortium partners of DSSC, while they share insights into the world of technical convergence and its potential impact on the way we handle data.
