

Workshop: Acceptability and Trustworthiness of AI, Data, and Robotics-Driven Technologies. Case of European businesses

Date: 15 December 2023

Time: 10:00 AM - 11:40 AM (CEST)

Location: Virtual Event

Five panelists will be asked questions related to the acceptability and trustworthiness of AI, data, and robotics-driven technologies. These questions will be based on the findings from our research in T3.2 (interviews with business owners, analyses of business reports, a survey).

The main goal of the questions is to provide the European Commission with practical and actionable recommendations on how to encourage European businesses to use more ADR technologies.
