

Deeptech GigaHack Moldova - Empowering great minds

Deeptech GigaHack presents an extraordinary platform for IT professionals, researchers, tech enthusiasts, startups, business developers, and other experts in Deep Tech areas to experiment, collaborate and innovate.

For 3 days, participants will have the opportunity to work in teams on various technical tasks assigned by the hackathon team or chosen by themselves. They will discover and experience the latest technologies, tools and techniques to create innovative solutions in AI, big data, cyber security, energy, IoT, machine learning. With the guidance of expert mentors and access to all necessary technical support, participants will have the chance to showcase their skills and compete for a grand prize.

Are you an IT specialist, a researcher, deep tech expert or a tech enthusiast?

Join us and transform your ideas into impactful solutions and be one of the expected 300 participants at the largest hackathon in the Republic of Moldova!
