

Register for the Digital Archiving Futures 2024 hybrid event

Join the **eArchiving Initiative** at the “Digital Archiving Futures” event on the **4 - 6 September 2024** in Mikkeli, Finland.

Research Centre Digitalia, together with other Memory Campus organisations, have put together a three-day hybrid event called “Digital Archiving Futures” on the 4-6 September 2024 in Mikkeli, Finland. Themes of the event are “Data Spaces, Artificial Intelligence, and Cluster Collaboration”, featuring speakers from the GLAM sector and information management field from Finland and across Europe.

The event is free of charge for participants and is organised by Research Centre Digitalia and [Memory Campus Cluster](#), as a part of their project “Memory Campus as an International Cluster for Information Management”, funded by the Finnish South Savo Regional Council from funds allocated to supporting the sustainable growth and vitality of regions. There is an exciting and varied programme: [Digital Archiving Futures - Programme](#), including a talk on the last 10 years of eArchiving from Janet Anderson, with speakers from Finland and beyond: [Digital Archiving Futures - Speakers](#).

Read more and [register online](#) for the event. Online registration has been extended until the end of August. Onsite registration is now closed but you can still register to attend online to meet great experts and colleagues.
